Move from **DREAM** to **DO!**

Most people get stuck dreaming. They dream about their ideal life, ideal career, or even that ideal business they want to start. But because they don't know exactly what to do or are too afraid to take action, their dreams turn into nightmares instead of reality.

Don't let this be true for you! During this 2-day, interactive-learning experience, you will move from DREAM to DO by:

- Dropping what's holding you back, whether it's your inner critic, outside voices, or the comparison game.
- Developing a crystal-clear compass, one that is specific to you and your vocational calling, so that you can confidentially say YES to opportunities that fit you and NO to everything else.
- Discovering the secret formula to being ultra-focused and driven without getting burned out.

Kent Julian
Founder of *Live It Forward*

Life is too short to let *coulda*, *shoulda*, and *woulda*s pile up. If you want your life to count, it's time to draw a line in the sand and say, "**If not now, WHEN!**"
